

Welcome to the

MANDOX ECOSYSTEM

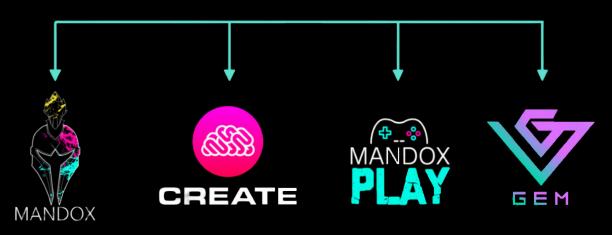

Mandox was launched November 26th 2021.

Mandox is creating a forever growing ecosystem that bridges the gap between cryptocurrencies & NFTs.

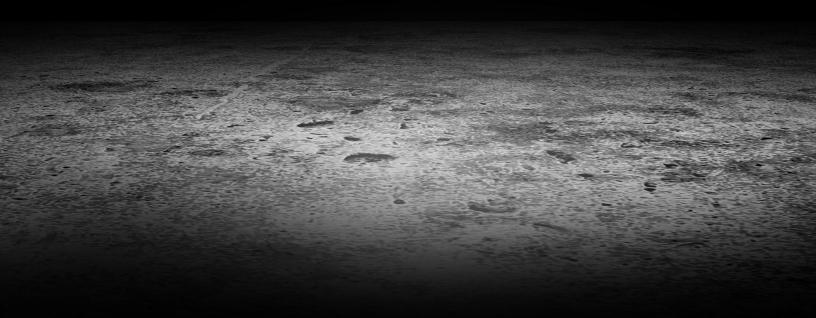

Mandox specializes in Crypto, NFTs, and utility which allows investors to earn passive income. There is also a P2E Game in development and a NFT Marketplace, Mandox Play and Create NFT Marketplace.

Mandox strives to bring real innovation to the space that benefits its investors with passive income. Not only does Mandox bring value to its investors, another main focus is to give back to those in need from royalties of Create NFT Marketplace.

THE NANDOX MISSION

Mandox positions itself as a bridge between cryptocurrency and NFTs, aiming to bring new blockchain innovations to life. The project focuses on creating a comprehensive ecosystem that includes an ERC-20 token, an NFT marketplace, and various utilities like token rewards and a play-to-earn (P2E) game, Mandox Play. This ecosystem is designed not just to facilitate transactions but to offer unique utilities that are aimed to give value for its token holders and investors. By leveraging the Ethereum blockchain, Mandox strives to provide a platform where crypto enthusiasts and artists can dive deep into the cryptoverse, promoting both decentralization and artistic expression through innovative blockchain applications. Within this ecosystem, Create NFT Marketplace stands out with its mission to provide humanitarian relief by channeling a portion of its transaction fees to support charitable causes, thus combining the power of blockchain with philanthropy.

- 6. Swap your Eth for \$MANDOX
- 7. You are now part of the Mandox community!

MANDOX NFTS

A unique collection within the Mandox ecosystem, designed to bridge the gap between cryptocurrency and the burgeoning world of NFTs. Each NFT is part of one of the eight distinct tribes, each with its own narrative and utility within the Mandox universe. These NFTs not only serve as digital collectibles but also provide holders with various benefits, including rewards, participation in play-to-earn (P2E) games, and access to the Mandox Community. The current total supply of Mandox NFTs stands at 8,195, spread across these eight tribes, each offering a different aspect of the Mandox story and functionality, making them an integral part of a larger, evolving ecosystem.

POWERED BY

WIRE NETWORK LAYER 1

Mandox operates as a decentralized ecosystem, emphasizing security and transparency. Unlike many projects where developers retain substantial token supplies, Mandox has taken the proactive step of burning 79% of its total token supply to ensure a more equitable distribution. We have engineered the project with robust security measures, keeping the interests of investors at the forefront. However, please note that this document does not constitute financial advice. Cryptocurrencies are inherently volatile and involve significant risks. It's crucial that you conduct your own thorough research or consult with a qualified financial advisor before making any investment decisions.
